New Source Review newspaper advertisements for construction permit applications, May 13, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: May 11, May 12, or May 13, 2004. Public notices are generally published every two weeks. The previous publication of public notices was April 27 - 29, 2004.

### **PUBLIC NOTICE**

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Standard Aero (Alliance)</u>, <u>Inc.</u> with a mailing address of <u>1029 Ross Drive</u>, <u>Maryville TN 37801</u>. They seek to obtain an air contaminant permit (Division identification number: <u>05-0172-01/57256</u>) for modification of a <u>Jet Engine Testing Operation</u> located at <u>the same address</u>. The requested modification is to increase the number of engines tested and the amount of jet fuel used by the source. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source and would increase. Mr. T. Blake is the assigned Division person.

For the Blount County "Maryville Daily Times"--published once on or before Thursday, May 13, 2004.

### FIRST APPLICANT

The first applicant is Newport Paving and Ready Mix with a mailing address of 1225 Parkway, Sevierville, TN 37862. They seek to obtain an air contaminant permit (Division identification number: 15-0088-01/55902) for operation of a Concrete Batch Plant located at 351 Industrial Road, Newport, TN 37821. This existing operation consists of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. D. Martin is the assigned Division person.

# SECOND APPLICANT

The second applicant is <u>Charles Blalock & Sons, Inc.</u> with a mailing address of <u>1225 Parkway</u>, <u>Sevierville, TN 37862</u>. They seek to obtain air contaminant permits for operation of air contaminant sources located at <u>351 Industrial Road</u>, <u>Newport, TN 37821</u>, as follows:

- (1) <u>Asphalt Batch Plant</u> (Division identification number: <u>15-0090-01/57267</u>). This existing operation consists of crushed rock and sand stockpiles, silos, a batch mixer, conveyors, a hot oil heater, a diesel engine generator, and associated equipment used to produce hot-mix asphalt. Natural gas is used for fuel. No. 2 fuel and No. 4 fuel are used for back up. Baghouses are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.
- (2) <u>Rock Crushing Operation</u> (Division identification number: <u>15-0090-02/57268</u>). This existing operation consists of a jaw crusher, cone crusher, screens, conveyors, crushed rock and sand stockpiles, a diesel engine generator, and associated equipment used to produce gravel. No. 2 fuel oil is used for fuel. Wet suppression is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.

For the Cocke County "Newport Plain Talk"--published once on or before Thursday, May 13, 2004.

The applicant is <u>Rogers Group, Inc.</u> with a mailing address of <u>P.O. Box 25250, Nashville, TN 37202</u>. They seek to obtain an air contaminant permit (Division identification number: <u>26-0078-01/57257</u>) to modify an <u>Asphalt Plant</u> located on <u>Marquette Road, Cowan, TN 37318</u>. The requested modification is to add a large stationary diesel engine to drive a generator used to supply power for the asphalt plant operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants emitted from this source would increase. Mr. R. Benjamin is the assigned Division person.

For the Franklin County "Herald-Chronicle"--published once on or before Thursday, May 13, 2004.

The applicant is American Woodmark Corp. with a mailing address of 1 American Woodmark Drive, Humboldt, TN 38343. They seek to obtain an air contaminant permit (Division identification number: 27-0174-05/57262) for modification of a Woodworking Operation located at 1 American Woodmark Drive, Humboldt, TN 38343. The proposed modification is the addition of a saw operation and return line to be used for the production wood products. A dust collection system would be used for pollution control. There would be physical construction. Regulated air contaminants emitted from this source would increase. Mr. R. Benjamin is the assigned Division person.

For the Gibson County "Milan Mirror-Exchange" -- published once on or before Thursday, May 13, 2004.

### FIRST APPLICANT

The first applicant is <u>Radford Quarries of Boone, Inc.</u> with a mailing address of <u>P.O. Box 2071, Boone, NC 28607</u>. They seek to obtain an air contaminant permit (Division identification number: <u>46-0039-01/57277</u>) for construction of a <u>Rock Crushing Operation</u> at <u>501 Doe Creek Road, Butler, TN 37640</u>. This proposed operation would consist of a jaw crusher, cone crusher, screens, conveyors, crushed rock and sand stockpiles, and associated equipment used to produce gravel. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

## SECOND APPLICANT

The second applicant is <u>Boone Aggregates Company, Inc.</u> with a mailing address of <u>P.O. Box 2071, Boone, NC 28607</u>. They seek to obtain an air contaminant permit (Division identification number: <u>46-0040-01/57278</u>) for construction of a <u>Concrete Batch Plant</u> at <u>US Hwy 421N, Trade, TN 37601</u>. This proposed operation would

consist of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. D. Martin is the assigned Division person.

For the Johnson County "Tomahawk"--published once on or before Thursday, May 13, 2004.

The applicant is <u>Bowater Newsprint</u> with a mailing address of <u>5020 Highway 11 Calhoun, TN 37309</u>. They seek to obtain an air contaminant permit (Division identification number: <u>54-0012-43/57260</u>) for construction of a <u>Pulp Refining Process</u> located at <u>5020 Highway 11 Calhoun, TN 37309</u>. This proposed operation would consist of two pulp refiners to improve the quality of pulp generated from each thermo-mechanical pulping (TMP) system, and one refiner to improve hardwood pulp from the kraft mill. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. H. Flores is the assigned Division person.

For the McMinn County "Daily Post-Athenian"—published once on or before May 13, 2004.

The applicant is <u>Vila Cleaners</u> with a mailing address of <u>901 Rock Spring Road, Suite 130, Smyrna, TN 37167</u>. They seek to obtain an air contaminant permit (Division identification number: <u>75-0582-01/57229</u>) for construction of a <u>Dry Cleaning Operation</u> at <u>the same address</u>. This proposed operation would consist of a large dry-to-dry perchloroethylene dry cleaning machine. A refrigerated condenser would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Nicole King is the assigned Division person.

For the Rutherford County "Daily News Journal"--published once on or before Thursday, May 13, 2004.

The applicant is <u>Royal Mouldings, LLC</u> with a mailing address of <u>P. O. Box 610, Marion, VA 24354</u>. They seek to obtain an air contaminant permit (Division identification number: <u>82-0297-08/57271</u>) for modification of an existing <u>Plastic Extrusion Operation</u> located at <u>328 Industrial Drive, Bristol, TN 37620</u>. This existing operation consists of twenty-six extruders that are used to manufacture plastic molding. The requested modification is to add fifty new extruders to the existing operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source and would increase. Mr. T. Blake is the assigned Division person.

For the Sullivan County "Bristol Herald Courier"--published once on or before Thursday, May 13, 2004.

The applicant is McMinnville Electric System with a mailing address of P.O. Box 608 McMinnville, TN 37111. They seek to obtain an air contaminant permit (Division identification number: 89-0104-01/57279) for modification of an Electric Generating Facility located at 200 Block of Cadillac Lane (McMinnville Electric System's Carl Walker substation). This proposed modification to a permitted operation would consist of one additional diesel generator in a sound attenuated enclosure integrated with a two-chamber catalytic reduction system that reduces air contaminant emissions and associated equipment. SCONOX would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. H. Flores is the assigned Division person.

For the Warren County "Southern Standard"—published once on or before May 13, 2004.

The applicant is <u>Civil Constructors</u>, <u>Inc.</u> with a mailing address of <u>P.O. Box 685 Franklin</u>, <u>TN 37065</u>. They seek to obtain an air contaminant permit (Division identification number: <u>95-0277-01/57272</u>) for construction of a <u>Powerscreen Powergrid 1200 Unit</u> located at <u>N. Mt Juliet Road Mt. Juliet</u>, <u>TN 37122</u>. This proposed operation would consist of a diesel engine powered scalping and conveying unit with associated equipment. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. H. Flores is the assigned Division person.

For the Wilson County "Lebanon Democrat"—published once on or before May 13, 2004.
